SUMMARY

Passionate Software Developer with a strong grasp of **Data Structures & Algorithms (DSA)** and **Object-Oriented Programming (OOP)**, dedicated to writing clean, efficient code. Skilled in developing user-focused, high-performance web applications with **JavaScript, React.js, Node.js, Express.js**, and robust data handling using **MySQL** and **MongoDB**. Quick to learn new technologies and thrive in collaborative, agile teams, delivering solutions that blend performance and simplicity.

EXPERIENCE

Web Developer Intern

CariKture Pvt. ltd

📅 10/2024 - 01/2025 　 📍 Work from Home

Built and maintained full-stack web features with React.js, Node.js, Express, and MongoDB. Delivered secure, responsive interfaces and REST APIs, working closely with designers and backend teams to optimize performance and usability.

EDUCATION

B.Tech in Computer Science Engineering

Ajeenkya DY Patil University

📅 08/2022 - 05/2026 　 📍 Pune, Maharashtra, India

KEY PROJECTS

StyleMate+

📅 05/2025 - 06/2025

Tech Stack: HTML, CSS, Javascript, Node.js, Express.js, React.js, Bootstrap, MongoDB, FastAPI, RESTful APIs, Python, OpenCV, CNN

- Developed an end-to-end AI-powered fashion recommendation platform by building custom CNN models and serving real-time styling predictions via a FastAPI back-end and RESTful APIs.
- Designed a Pinterest-inspired, responsive React.js front-end with dynamic filters and occasion-based recommendations, using MongoDB for secure user profiles and personalized styling history.

ApplyXpert

📅 04/2025 - 04/2025

Tech Stack: HTML, CSS, Javascript, Node.js, Express.js, React.js, Bootstrap, MongoDB, Python, spaCy, PyMuPDF, FPDF, RESTful APIs

- Designed and developed a full-stack web application for automated resume analysis, integrating a Python NLP engine (spaCy) with a robust Node.js and Express.js back-end and a dynamic React.js front-end, connected via secure RESTful APIs.
- Created a responsive, user-friendly interface using HTML5, CSS3, JavaScript, and Bootstrap, enabling users to upload resumes, compare multiple job descriptions, and receive instant, ATS-optimized feedback stored and managed with MongoDB.

Employee Management System

📅 12/2024 - 12/2024

Tech Stack: HTML, CSS, Javascript, React.js, Node.js, Express.js, MongoDB, Bootstrap, Git, GitHub, RESTful APIs

- Developed a full-stack employee management system using React.js for the front-end and Node.js with Express.js for the back-end, enabling secure CRUD operations for employee records and streamlined workforce administration.
- Designed a responsive, user-friendly interface with HTML5, CSS3, and JavaScript, integrated with MongoDB for data storage, and implemented RESTful APIs and Git version control for smooth deployment and collaboration.

ERP Web Application

📅 10/2024 - 11/2024

Tech Stack: HTML, CSS, Javascript, Node.js, Express.js, MongoDB, EJS Templates, Git, GitHub, RESTful APIs

- Developed a full stack ERP web application using Node.js, Express.js, and MongoDB to enable secure, role-based access management for faculty, students, and administrators, streamlining data handling and permissions in academic institutions.
- Built dynamic, responsive user interfaces with HTML5, CSS3, JavaScript, and EJS Templates, ensuring seamless cross-device interaction, and implemented version control with Git for collaborative development and code integrity.

SKILLS
